

5th INTERNATIONAL SYMPOSIUM ON
ROLLER COMPACTED CONCRETE (RCC) DAMS —
“Celebration for 30 years’ application of RCC in Dams”

Sponsored By:

Chinese National Committee on Large Dams
Spanish National Committee on Large Dams
Technical Committee on RCC dams, CSHEE
Technical Committee on RCC dams, CHES
Guizhou Wujiang Hydropower Development Co. Ltd.
Guizhou Branch, China Huadian Corporation
Other sponsors to be invited

Organized By:

China Institute of Water Resources and Hydropower Research

Co-sponsored By:

National Natural Science Foundation of China (NNSFC)

International Commission on Large Dams (ICOLD)

Longyou Wuqiang Concrete Admixture Co., Ltd.

China Three Gorges Project Corporation

Longtan Hydropower Development Co., Ltd.

Chengdu Hydropower Investigation, Design & Research Institute, CHECC

Guiyang Hydropower Investigation, Design & Research Institute, CHECC

Mid-South Design and Research Institute, CHECC

Kunming Hydropower Investigation, Design & Research Institute, CHECC

Guizhou Society for Hydroelectric Engineering

Guizhou Survey, Design and Research Institute for Water Resources and Hydropower

Sinohydro Corporation

Sinohydro Engineering Bureau Minjiang

Sinohydro Engineering Bureau 7

Sinohydro Engineering Bureau 8

Sinohydro Engineering Bureau 9

Nanjing Hydraulic Research Institute

Jiangsu Bote New Materials Co., Ltd.

Other Corporations, Companies and Institutes to be invited

ADVISORY COMMITTEE

Chairman

LU Youmei Chairman, Chinese National Committee on Large Dams (CHINCOLD)

Vice-Chairmen

GAO Bo Department of International Cooperation, Science and Technology, the Ministry of Water Resources

KUANG Shangfu China Institute of Water Resources and Hydropower Research

MEI Jinyu Technical Committee on RCC dams, CSHEE

LI Chunmin Technical Committee on RCC dams, CHES

FAN Jixiang Sinohydro Corporation

Members

De Vivo (France) International Commission on Large Dams (ICOLD)

ZHENG Sheng'an Chengdu Hydropower Investigation, Design & Research Institute, CHECC

DAI Bo Longtan Hydropower Development Co., Ltd.

GAO Jizhang Chinese National Committee on Large Dams (CHINCOLD)

ZHANG Jinsheng International Commission on Large Dams (ICOLD)

WANG Shengpei Technical Committee on RCC dams, CSHEE

JIN Zehua Guizhou Branch, China Huadian Corporation

FAN Fuping Guiyang Hydroelectric Investigation, Design & Research Institute, CHECGC
Member from China Three Gorges Project Corporation

ORGANIZING COMMITTEE

Chairman

LU Youmei Chairman, Chinese National Committee on Large Dams (CHINCOLD)

Vice-Chairmen

JIA Jinsheng China Institute of Water Resources and Hydropower Research

FANG Yanquan Sinohydro Engineering Bureau Minjiang

ZHANG Zhixiao Guizhou Branch, China Huadian Corporation

Members

M. Alonso Franco Spanish National Committee on Large Dams

F. Soriano Spanish National Committee on Large Dams

ZONG Dunfeng Technical Committee on RCC dams, CSHEE

YU Zizhong Technical Committee on RCC dams, CHES

CHEN Zisen Longyou Wuqiang Concrete Admixture Co., Ltd.

CAI Yuebo Nanjing Hydraulic Research Institute

CHEN Xueyun Sinohydro Engineering Bureau 9

LIU Guangquan China Institute of Water Resources and Hydropower Research

ZHANG Guoxin China Institute of Water Resources and Hydropower Research

HE Kaiming Guizhou Society for Hydroelectric Engineering

LIU Jiaping Jiangsu Bote New Materials Co., Ltd.

TECHNICAL COMMITTEE

Chairman

Luis Berga (Spain) President of ICOLD

Vice-Chairmen

LUYihui China Institute of Water Resources and Hydropower Research

J. Yagüe Spanish National Committee on Large Dams

Dunstan Principal, Malcolm Dunstan & Associates

Members

J.C. de Cea Spanish National Committee on Large Dams

F.Ortega Spanish National Committee on Large Dams

FANG Kunhe Technical Committee on RCC dams, CSHEE

ZHANG Yanming Technical Committee on RCC dams, CHES

SUN Hongshui Sinohydro Corporation

WANG Renkun Chengdu Hydropower Investigation, Design & Research Institute, CHECC

FENG Shurong Mid-south Hydropower Investigation, Design & Research Institute, CHECC

TU Huaijian Sinohydro Engineering Bureau 8

WEN Jiahai Sinohydro Engineering Bureau 7

LIU Jintang Kunming Hydropower Investigation, Design & Research Institute, CHECC

LUO Daiming Guizhou Survey, Design and Research Institute for Water Resources and Hydropower

CHEN Gaixin China Institute of Water Resources and Hydropower Research

ZHAO Sanqi Guizhou Branch, China Huadian Corporation

INVITATION

RCC technology has been applied in dam construction for about 30 years in the world. In order to celebrate its application and follow those successful and fruitful Symposiums held in Beijing (China) in 1991, Santander (Spain) in 1995, Chengdu (China) in 1999 and Madrid (Spain) in 2003, the 5th INTERNATIONAL SYMPOSIUM ON ROLLER COMPACTED CONCRETE (RCC) DAMS will be held in Guiyang, China on November 2~4, 2007.

It is our honor for Chinese National Committee on Large Dams (CHINCOLD) and Spanish National Committee on Large Dams (SPANCOLD) to invite you to participate the symposium, which will contribute significantly to the knowledge and application of RCC technology.

Based on the definition of large dam by ICOLD, there were more than 22 RCC dams completed or under construction located in Spain and more than 90 RCC dams completed or under construction located in China by the end of 2005. Spain and China, two leader countries in RCC dams would like to make their efforts to prepare the 5th Symposium with the biggest ambitions, both in contents and in international scope. This Symposium will provide all attendants to discuss and exchange on RCC dams issues such as design, construction, operation, rehabilitation, maintenance and application.

A technical exhibition for RCC dams will be held during the Symposium. Multi-day technical tours will be arranged to Longtan RCC Gravity Dam (H=216.5m), Suofengying RCC Gravity Dam (H=122m) and etc. after the symposium.

TOPICS

1. BACKGROUND AND NEW TRENDS IN RCC DAMS.

- ◆ Cases and Histories
- ◆ Experiences and scenarios in different countries

2. HIGH RCC DAMS: GRAVITY AND ARCH DAMS.

- ◆ Design
- ◆ Materials
- ◆ Thermal considerations
- ◆ Mixture proportions

3. CONSTRUCTION OF RCC DAMS

- ◆ Quality control
- ◆ Equipments
- ◆ Innovations

4. PERFORMANCE, MONITORING AND REHABILITATION OF RCC DAMS.

- ◆ Performance
- ◆ Monitoring and evaluation
- ◆ Rehabilitation

5. RCC IN OTHER HYDRAULIC STRUCTURES AND UPGRADING

- ◆ Cofferdams
- ◆ Upgrading work
- ◆ Others

6. CSG AND ITS APPLICATION

- ◆ Design
- ◆ Construction
- ◆ Performance

LANGUAGE

The official languages of the Symposium are English and Chinese. Simultaneous translation will be provided for the assembly meetings of symposium.

PAPERS SUBMISSION

By the end of April 2007, the secretariat of the symposium has received 146 abstracts, 90 from China, and 56 from abroad. Paper acceptance has been sent to the authors. The full paper should be submitted to the Secretariat before the **15th July 2007**. The proceedings of the symposium based on the selected papers will be formally published before October 2007.

PAPER ABSTRACTS SELECTED

(Total 146 abstracts, 56 from abroad, and 90 from China)

Topic 1: BACKGROUND AND NEW TRENDS IN RCC DAMS (Total 21 abstracts accepted)

- 1 Canada: George Casagran
RCC Dams - Inclined Internal Drain Holes
- 2 Colombia: Luis Fernando Restrepo
A Fragility Curve Model for RCC Gravity Dams
- 3 Germany: Francisco Ortega S.
Design Concepts of Forwork for RCC Dams
- 4 Iran: Ebrahim Ghorbani
Feasibility study of high RCC gravity dam in Bakhtyari project
- 5 Iran: Naser Tarkeshdooz
Dam Alternative Study and Selection of Optimum One in Rudbar Lorestan Dam
- 6 Iran: Jafar Asgari Marnani
The Influence of Foundation Condition on the Desgin of Rudbar Lorestan RCC Dam
- 7 Iran: Meysam Fadaee
Estimation of Deformation Modulus at Rudbar Lorestan Dam Site
- 8 Libya: A.MAli
New alternative method for bonding RCC layers
- 9 Myanmar: U.Win Kyaw
An Overview of the Development of the YEYWA Hydropower Project, Myanmar
- 10 Pakistan: Dr. Izhar ul Haq Diamer
Bash Dam Project Construction Materials Investigations for RCC Dam
- 11 Pakistan: Zahid Majeed
Scenario of Roller Compacted Concrete (RCC) Dams in Pakistan
- 12 Spain: Juan Carlos De Cea
RCC Dams in Spain
- 13 Switzerland: Dr. Alberto M.Scuero
Taishir RCC Dam in Mongolia
- 14 UK: Dr. M.R.H.Dunstan
Overview of RCC Dams at the end of 2006
- 15 China: PAN Luosheng
Dam Temperature Control and Crack RCC Key Technologies
- 16 China: PAN Luosheng
Comparison on Shear Resistance Test Results of Laboratory and Field for Longtan RCC Dam
- 17 China: ZHAO Quansheng
The RCC double-curvature arch dam of Linhekou Hydropower Station
- 18 China: GAO peng
Analysis of Influence that the Content of Fines Exercises on Property of RCC in Xiangjiaba Hydropower Station
- 19 China: LIU Guangyan
The actual simulating design and new structure of RCC arch dam

Topic 2: HIGH RCC DAMS: GRAVITY AND ARCH DAMS (Total 85 abstracts accepted)

- 1 France: Bernard Bouyge
A High RCC Dam with Low Grade Aggregates
- 2 Germany: Dr. Chongjiang Du
Effect of Thermal Shock and Overcooling due to Overtopping of Cold River Water on Dam Concrete
- 3 Iran: Prof. Reza Attarnejad
The compare of discrete crack and smeared crack methods in gravity dams.
- 4 Iran: Hamid Reza Kazemi Esfeh
Detail Design and Construction Considerations in Jegin RCC Dam Project
- 5 Iran: Dr. M. E. Omran
Materials investigation and mix design program for the Jahgin RCC dam in Iran
- 6 Iran: R. Berry Dizaji
A Case Study of Deformation Measurements in Rudbar Lorestan RCC Dam (IRAN)
- 7 Iran: Maryam Ghaffari Dolama
Design consideration of Bedacli RCC dam
- 8 Iran: Hamidreza Araghian
Thermal Analysis of Badovli dam
Effect of Plasticizers on mix efficiency and cement content of the roller compacted concrete
- 9 Iran: Ebrahim Ghorbani
Numerical Simulation of Temperature Variations during the Construction of the Roller Compacted Concrete Dams
- 10 Iran: Fakhreddin Takhte Mina
Design of Hydraulic Structures of Bedavli RCC Dam
- 11 Iran: Reza Najafzadeh
Study of shear safety factor and lift joint treatment zonation in RCC dams
- 12 Mexico: Amanda Garduno
High rcc dams:gravity and arch dams design and Mixture proportions
- 13 Morocco: Ahmed Chraibi
RCC Dams Design and Construction in Morocco
- 14 Myanmar: U.Win Kyi
Trial mixes and full-scale trials for Yeywa RCC dam
- 15 Pakistan: Rashid Ali Khan
Gomal Zam Dam Multipurpose Project;A Virgin Experience of High RCC Dam in Pakistan
- 16 South Africa: Quentin Shaw
An Investigation into the Thermal Behaviour of Roller Compacted Concrete in Large Dams
- 17 Spain: Enrique Grosso Casalini
Exposure time between lifts in RCC dams- A new design method used at El Esparragal Spanish Dam

- 18 Switzerland: Dr. Martin Wieland
Proposed Nam Theun 1 RCC Arch-Gravity Dam in Laos
- 19 UK: Tom Reao
Control of RCC Temperature
- 20 Vietnam: Pham Hong Giang
The RCC DINH BINH dam in Vietnam
- 21 Vietnam: Nguyen Quyet Thang
Design and preliminary full-scale trial for the RCC dam at Son La HEP, Vietnam
- 22 China: Prof. FANG Kunhe
Study on phosphorous slag using for mineral admixture of RCC
- 23 China: LONG Jiankai
Test and study on the effect of powder coating aggregate on the properties of RCC
- 24 China: JIANG Rongmei
Impacts on mechanical properties of full grade roller compacted concrete due to layer and size
- 25 China: CHEN Gaixin
Limestone powder, a new kind of supplementary mineral fines for RCC
- 26 China: JI Guojin
Tests for Air Content Improvement of Roller Compacted Concrete
- 27 China: HE Xiang-an
The Research and Application of the New type Admixture in the Large-volume Hydraulic Concrete
- 28 China: HE Jinrong
Application researches on high frost-resistant durability RCC in severe cold region
- 29 China: Dr. RUAN Yan
Effect of fly ash on dissolution characteristic of roller compacted concrete
- 30 China: Prof. LI Penghui
The actual simulating design and new structure of RCC arch dam
- 31 China: XIAO Kaitao
Study on the Influence of Limestone Powder on Roller Compacted Concrete Performance and Action Mechanism
- 32 China: SHAO Yong
Dynamic Analysis on Nong-ling RCC Gravity Dam by Considering the Effect of Infinite Foundation Radiation Damping
- 33 China: Prof. WEI Dazhi
Temperature Control for Longtan RCC Dam
- 34 China: Dr. CHEN Xiutong
3-D Nonlinear Finite Element Dynamic Analysis on Guandi RCC Gravity Dam
- 35 China: Prof. YANG Lingqiang
The appliance of 3-D composite layers element in RCC arch dam

Topic 3: CONSTRUCTION OF RCC DAMS (Total 30 abstracts accepted)

- 1 Australia: Brian Forbes
Kinta RCC dam construction experiences
- 2 Germany: Francisco Ortega S.
Method for the Selection of Plant & Equipment for the Efficient Construction of RCC DAMS
- 3 India: V.C.Shelke
Construction of the first RCC dams in India at Ghatghar
- 4 Iran: Dr. M. E.Omran
Design and Construction Aspects of RCC Works at Jahgin Project, Iran
- 5 Iran: R.Peyrovdin
Construction of the Jahgin dam-the first large RCC dam in Iran
- 6 Myanmar: U Aung Koe
Construction Planning, Plants and Equipment for Concrete Works at Yeywa HPP
- 7 Myanmar: U.Myint Zaw
Construction of the RCC dam at Yeywa HEP
- 8 Spanish: Rafael Ibáñez de Aldecoa Lorente
Plans for the Construction of labrena ?Dam in Spain
- 9 Switzerland: Dr. Marco Conrad
Innovative monitoring devices for an integral observation of thermal stress behavior of large RCC dams
- 10 China: Xianjin LONG
Construction of the RCC dam at Longtan
- 11 China: DAI Bo
Study and Practice of the Construction Technique of Longtan Dam under the Condition of High Temperature
- 12 China: Prof. LI Chunmin
Achievement and revelation from Site Experiment on Thicker Compacted Concrete Layers of RCC Dams for Huanghuazhai Hydropower Station
- 13 China: WU Xiaohong
RCC Dam Design and Construction of PengShui Hydropower Station
- 14 China: RUAN Guanghua
Study and Application of New Technology for RCC Sand Production
- 15 China: LI Lee
The Significance of Calibration of Shallow Nuclear Density Gauge
- 16 China: GAO Peng
Analysis of indicators and their influencing factors of RCC construction quality
- 17 China: ZHENG Zhiren
Construction in full section in RCC gravity dam of Suofengying hydropower station in GuiZhou
- 18 China: HUANG Houlong
Construction of Roller Compacted Concrete Dam on Suofengying Hydropower Station
- 19 China: CAI Shenghua
Study on RCC Construction Technology of Pengshui Hydropower Station
- 20 China: TIAN Yugong
Research and Application of LongShou Arch Dam RCC of Dry severely Cold Local
- 21 China: WU Xu
Rapid Construction Technology for Compacted Concrete for Longtan Hydropower Dam Project

Topic 4: PERFORMANCE, MONITORING AND REHABILITATION OF RCC DAMS.

1 Spain: Mr. Raimundo LaFuente

Final phase of the cooling process of the Rialb RCC dam

2 Germany: Matthias Goltz

Distributed fibre optic temperature measurements -an competitive alternative for temperature monitoring in high RCC dams

3 China: YU Sanda

Analysis for Monitoring Results of the Third-stage RCC Cofferdam in the Three Gorges Project

Topic 5: RCC IN OTHER Hydraulic Structures AND UPGRADING

1 USA: Jim Zhou

Designing the Tallest RCC Dam Raise for San Vicente Dam in Southern California

2 China: WANG Ping

Study on the Reserved Bricks made with Roller Compacted Concrete technique for flood control

Topic 6: CSG AND ITS APPLICATION

1 China: Dr. XIONG Kun

Study on seismic safety of hardfill dam

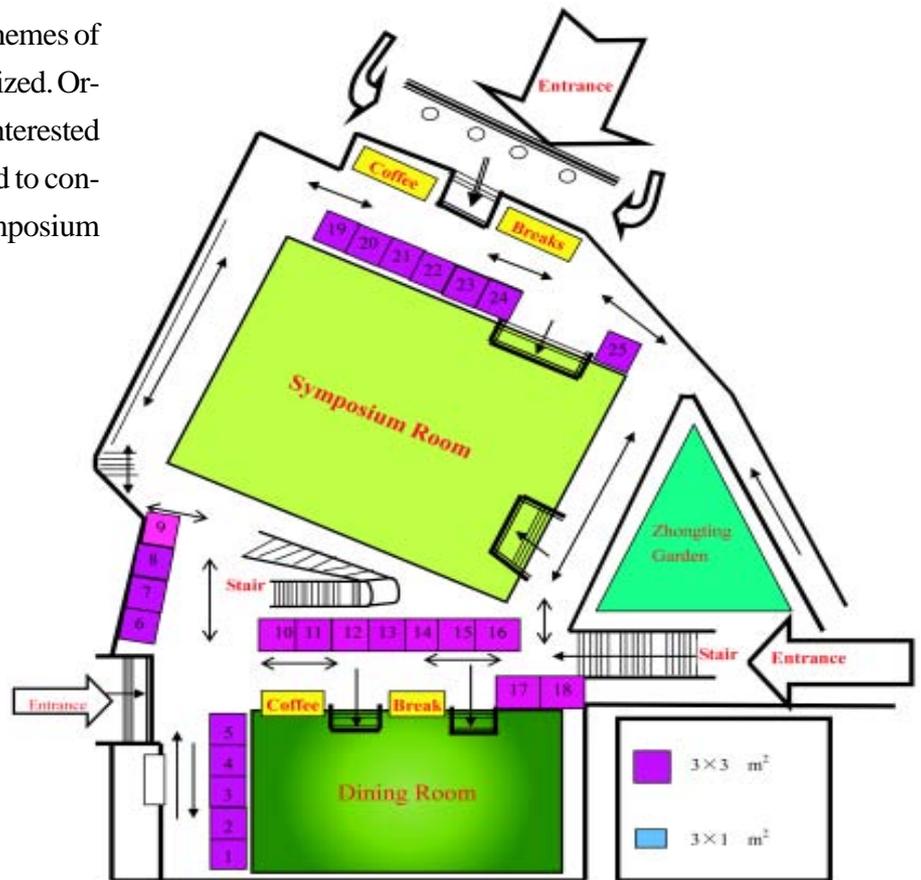

2 China: Dr. PENG Yunfeng

TECHNICAL EXHIBITION

During the symposium, a technical exhibition related to the themes of the Symposium will be organized. Organizations and companies interested in stands are kindly requested to contact the secretariat of the symposium for further details.

LOCATION

The 5th INTERNATIONAL SYMPOSIUM ON ROLLER COMPACTED CONCRETE (RCC) DAMS will be held in Guizhou Huaxi Guest House, Guiyang, China on November 2~4, 2007.

Guiyang is the capital of Guizhou Province, located in the southwest of China. Guiyang is a Han Chinese-based multi-ethnic city where, more than 30 other minorities inhabited. It has a simple yet rich folk customs and habits and a splendid culture. Guizhou Huaxi Guest House is located in the southwest of Guiyang, 17km away from the center of the city, and 28km away from the Guiyang Airport.

GENERAL PROGRAM

Date	Time	Activity
Nov. 2 (Friday)	Full day	Registration
Nov. 3 (Saturday)	Morning	Opening Ceremony Invited Lectures
	Afternoon	Technical sessions
	Evening	Welcome Reception
Nov. 4 (Sunday)	Morning	Technical sessions
	Afternoon	Technical sessions
	Evening	Farewell Banquet
Nov. 5~8	Post study tour	

TECHNICAL TOURS

3 Post technical tours will be arranged after the symposium. Those who will take part in the tours will not only visit some high RCC dams completed, but also visit some RCC dams under construction.

Tour A: Guiyang-Longtan-Nanning, Nov. 5-8, 4 days, €480/person, Single room supplement €80/person

Day 1, Nov. 5 (Monday)

Depart Guiyang by bus (5 hours), arrive at Longtan Hydropower Plant. Lodging in the construction site of Longtan (H=216.5m).

Day 2, Nov. 6 (Tuesday)

Visit Longtan RCC Gravity Dam. Discussions and communications on the site. Lodging in the construction site of Longtan.

Day 3, Nov. 7 (Wednesday)

Leave Longtan to Nanning (the capital of Guangxi Autonomous Region) by bus (5 hours), Lodging in Nanning.

Day 4, Nov. 8 (Thursday)

Tour ends after breakfast.

Tour B: Guiyang-Xiuwen County-Silin-Guiyang, Nov. 5-9, 5 days, €640/person, Single room supplement €100/person

Day 1, Nov. 5 (Monday)

Depart Guiyang by bus (1.5 hours), arrive in Xiuwen County. Visit Suofengying RCC Gravity Dam (H=115.8m, completed). Return to Guiyang in the afternoon. Lodging in Guiyang.

Day 2, Nov. 6 (Tuesday)

Depart Guiyang by bus (8 hours) to Silin Hydropower Station. Overnight lodge in the Silin Hydropower station.

Day 3, Nov. 7 (Wednesday)

Visit Silin RCC Gravity Dam (H=117m, under construction), Lodging in the Silin Hydropower station.

Day 4, Nov. 8 (Thursday)

Return to Guiyang. Lodging in Guiyang.

Day 5, Nov. 9 (Friday)

Tour ends after breakfast.

Tour C: Guiyang-Kaiyang County-Silin-Guiyang, Nov. 5-9, 5 days, €640/person, Single room supplement €100/person

Day 1, Nov. 5 (Monday)

Depart Guiyang by bus (2.5 hours), arrive in Kaiyang County. Visit Dahuashui RCC Arch Dam (H=134.5m, completed). Return to Guiyang in the afternoon. Lodging in Guiyang.

Day 2, Nov. 6 (Tuesday)

Leave Guiyang by bus (8 hours) to Silin Hydropower Station. Overstay in the Silin Hydropower station.

Day 3, Nov. 7 (Wednesday)

Visit Silin RCC Gravity Dam (H=117m, under construction), Overstay in the Silin Hydropower station.

Day 4, Nov. 8 (Thursday)

Return to Guiyang. Lodging in Guiyang.

Day 5, Nov. 9 (Friday)

Tour ends after breakfast.

REGISTRATION

The Registration Form is enclosed in this bulletin. Participants are expected to complete the registration form and return it to secretariat of LOC as early as possible. Please be notified that registration can only be effective upon receiving both the Registration Form and the payment.

	Before Sep. 15 th ,2007	On or After Sep. 15 th ,2007
Participant	€400	€450
Accompanying Person	€250	€280

The registration fee for the Symposium includes the documentation, simultaneous translation, working lunches, coffees during the breaks, and the participation in the various social activities foreseen. The registration fee for the accompanying persons includes the programmed excursions, the assistance at the sessions of the Opening and Closing of the Symposium, and the participation in the various social activities foreseen.

ACCOMMODATION

Participants will stay in Guizhou Huaxi Guest House, Guiyang, China.

Address: Linyin Road, Huaxi District, Guiyang City, China.

Tel: +86-851-5368000 Fax: +86-851-5368118 Web: www.huaxihotel.com.cn

Room Price in Huaxi Guest House

Category	Price per room per night
Single room	€45
Double room	€53

To make your hotel reservation, please complete the registration form and return it to the Secretariat before Sept. 30, 2007. The hotel booking will be made on the basis of first come, first served. No guarantee for reservations can be made after this date. If you want to share a double occupancy room, please indicate your roommate's name in the Registration Form.

PAYMENT

The Payment method should be marked in the registration Form and returned to the secretariat of the symposium. Registration fee, hotel fee and tour fee should be in EURO Dollars and made payable by the one of following methods.

PAYMENT IN ADVANCE

- Bank Transfer

Account No.: 000 380 1809 1014

Account Name: CICCST/RCC 2007

Swift Code: BKCHCNBJ

Bank Name: Bank of China Head Office, 1 Fuxingmennei Ave., Beijing 100818, China.

Bank charges are the responsibility of the payee and should be paid at source. To avoid any misunderstanding and for the protection of the participants' interests, a duplicate or photocopy of the remittance order from the bank should be sent with the **Registration Form** to the Secretariat. The name of the participant as well as details of payment should be clearly marked on the remittance order.

- Bank Draft

Payment to: CICCST/RCC 2007

Mail to:

Mrs. Yulan Yuan

Chinese National Committee on Large Dams

20 Chegongzhuang West Road, P.O. Box 366, Beijing 100044, P.R. China

Tel: +86-10-68435228 Fax: +86-10-68712208 E-MAIL: chincold@iwhr.com

- Credit Card

Only Master Card, Visa Card, American Express Card will be acceptable. Please fill the necessary information in the Credit Card payment and sign your name on the Registration Form. Fax or mail the Payment Form (B) to the Secretariat of LOC. Additional 4% bank charge will be charged in the case of payment by cards.

PAYMENT ON-SITE

Cash (in EURO or equivalent CNY) and credit card (Visa, Master Card and American Express) will be accepted.

OFFICIAL RECEIPT

All participants will receive a written confirmation from the LOC as soon as their registration form with correct payment have reached the account number mentioned above in form of fax, letter or E-mail. The confirmation letter must be shown on the registration desk upon his/her arrival. A formal receipt will be given at the on-site registration desk.

CANCELLATIONS

Cancellation must be made in writing to the LOC. The refund will be two months after the Symposium.

	By Sept. 30 2007	After Oct. 1 2007
Registration Fee	75% refund	50% refund
Tour Fee	90% refund	70% refund

CORRESPONDENCE ADDRESS

All registration forms, abstracts and correspondence concerning on the 5th international Symposium on RCC dams should be sent to Secretariat as the following,

Ms. Zhongli MA, Mrs. Yulan YUAN

Secretariat of RCC 2007

Chinese National Committee on Large Dams

20 West Chegongzhuang Road, P.O. Box 366, Beijing 100044, P.R. China
