

Table of Contents

Part I: Keynote speeches

Scientific Development Perspective Stressing Comprehensiveness, Coordination, and Sustainability: A Must-Be for Western Hydropower <i>Fan Qixiang (China)</i>	1
Hydropower Development and Environment Protection on the Yalong River <i>Chen Yunhua (China)</i>	16
Expanding Flood Control Functions of Existing Dams <i>Hiroshi MINOBE, Keiichi YAMAMOTO (Japan)</i>	23
Support Program for the Surrounding Areas of Dam Construction <i>Won-Cheol Park, Jin-Soo Kim, Byung-Kook Park (Korea)</i>	33
Development of a Systemic mto Perspective on Dam Safety Management <i>Carl Rollenhagen, Per Evenéus (Sweden)</i>	41
Construction of Environment-friendly Hydropower Projects in Keeping Pace with Time <i>Li Jugen, Zhang Boting, Ren Jinghuai (China)</i>	54
Internal Erosion in Embankment Dams, Failure Mechanism and Strengthening by Adding a d/s Berm <i>Åke Nilsson (Sweden)</i>	66
Dam Construction in China—2006 Dam Statistics, Progresses and Concerned Issues <i>JIA Jinsheng (China)</i>	80
Part II: Coexistence of the Environment and dams	
Overview of Integrated Management of the Three Gorges Reservoir <i>Cao Guangjing, Cai Zhiguo (China)</i>	89
Monitoring of Vertical Water Quality Profile and Development of Water Quality Management in Dam Reservoir <i>Ken USHIJIMA, Akihiro MORITANI, Masahisa OKANO (Japan)</i>	101
Advanced Operation and Management of Multipurpose Dam for Ecological Conservation <i>Jinwon Seo, Ick Hwan Ko, Yang Soo Yoo (Korea)</i>	112
Jinping Hydropower Scheme – Project Construction and Fish Protection <i>Wu Shiyong, Wang Hongmei, Wangjian, Shen Manbin (China)</i>	119
Environmental Conservation at the Tokuyama Dam <i>Takeshi SUYAMA, Takashi KAJITANI, Kouta MURAO, Shigeharu JIKAN (Japan)</i>	125

Electricity Certificates Contribute to Refurbishments of Existing Hydropower Facilities at Vattenfall Vattenkraft <i>Anna Engström Meyer (Sweden)</i>	139
Building up Environment-Harmonious Xiangjiaba Hydropower Project By Innovated Management <i>Mr. Yao Yuanjun (China)</i>	148
Utilization of Reservoir Sediment of the Existing Dam (Yokoyama Dam) for Tokuyama Dam Construction Materials <i>Tomonobu Sato, Shigenobu Sakon, Shigeharu Jikan, Satoru Kawaji (Japan)</i>	154
The Effect of Dam on Ecological Environment and the Countermeasures Research <i>Meng Shaokui (China)</i>	167
Effective Utilization of Deep Aeration Equipment <i>Yuji Iwamatsu (Japan)</i>	172
Numerical simulation for evaluation the stability of using tailings from abandoned mine for dam construction materials <i>Doo-Hyung Choi, Heejun Suk, Hyoung-Soo Kim (Korea)</i>	185
Water Temperature Characteristics and Water Drawing from Different Level Intakes at Jinping I Hydropower Station on Yalong River <i>Jiang Hong, Lu Hongwei, You Xiang, He Yueping (China)</i>	200
Study of Possible Applications of Special Ejector to Dam Sediment Dredging System <i>Ichiro YOSHIKOSHI, Toshiyuki TEMMYO, Michihiro OHYA (Japan)</i>	211
Rainfall Interpolation of Ungaged Watersheds Water Resources Development in Middle-Western Korea <i>YeongSik Lee, HyunSup Song, LakSun Jin, JaeKyoung Lee (Korea)</i>	219
The Research on Ecological Environment Conservation and Treatment in Three Gorges Reservoir Area of Changjiang River <i>Liang Fuqing (China)</i>	230
Effects of Water Quality Improvement by Installation of Aerating Circulation Facilities in Dam Reservoirs <i>Kaoru TAKEYA, Shinsuke UNISUGA, Kosuke YONEMARU (Japan)</i>	238
Development of Sediment Supply Measures for Restoration of Riverbed Environment at the Downstream of the Dam - Sediment Discharge Facility by Sheet and Suction Pipe, and Air Valve - <i>Toshiyuki SAKURAI, Noriaki HAKOISHI, Josuke KASHIWAI, Takashi IZUMIYA Yasuo KUBO (Japan)</i>	248

Part III: Effective utilization of existing dams

- Reservoir System Operation Using Adaptive Sampling Implicit Stochastic Optimization Model 265
With Risk of Water Quality Standard Violation and Uncertainty of Inflow Forecast
Han Goo Lee, Kwang Jin Oh, Chong, Koo Yol (Korea)
- The case studies of small hydro turbines' performance improvement by efficiency test 278
Jae Hyeok Hwang, Yong Chae Jeong, Jung Jae Hyun, Kyung Taek Yum (Korea)
- Synergistic Gains from Joint Operation of Multiple Reservoir Systems in Han River 287
Lee, Gwang Man Cha, Hyung Sun Kang, Min Goo (Korea)

Part IV: Dam Safety Development

- Study on the Mechanism of Piping and the Effect of Suspended Cutoff in Dike Foundation 303
Ding Liuqian, Yao Qiuling, Sun Dongya (China)
- Rehabilitation of a Large Dam by Construction of Emergency Spillway 311
Jeon, Tae Myoung Oh, Cheol Gyu Baek, Un Il Kim, Chu Hwa (Korea)
- Halvfari Dam – Hydraulic Concerns And Rebuilding For Higher Safety Standard 320
James Yang, Per Larsson (Sweden)
- Geostatistical Data and Stochastic-Physical Analysis as a Basis for Estimating Risk of Internal 331
Erosion
Anders Wörman (Sweden)
- In-depth Event Investigation Based on a Systemic Mto Perspective in Vattenfall Hydro power 339
Plants
Per Evenéus, Carl Rollenhagen (Sweden)
- Study on the statistic model with impoundment factors for the analysis of the horizontal 359
displacement of a loam core earth/rock dam
Zhao Chun, Zhang Jinping, Jia Jinsheng, Lu Zhengchao (China)
- Plan for development of new water resources through the regular dam operation - A case project 367
for Seomjin-river dam –
Kyungtaek Yum, Seonuk Kim, Heebok Ahn (Korea)
- Forces on Grains Located in Model Geometry with Application to Internal Erosion in 375
Embankment Dams
J. Gunnar I. Hellström, Anna-Lena Ljung, T. Staffan Lundström (Sweden)
- Safety Monitoring Analysis and Back Analysis for Ertan Arch Dam 387
Shu Yong, Yuan Qiong, Mu Gaoxiang, Ji Jiarong, Wang Renkun (China)
- Testing of By-Pass Seepage by TEM 409
YAO Chenglin, FANG Chungang, JIA Yongmei, Li Ping, Wang Huibin (China)

Hydrostatic Pressure, Uplift Pressure and Their Combined Action in Structural Reliability Analysis	415
<i>Marie Westberg, (Sweden)</i>	
Introduction of a New Method to Build the Earth-rock-filled Dam	425
-- Research and Practice in the Technology of Building a Dam Without Foundation Ditch.	
<i>Chen Songbin, Chen Gongjian, Luo Xiaozu (China)</i>	
Floating Debris and Dam Safety.	435
<i>Nils Johansson (Sweden)</i>	
Runoff Modelling in Flooded Stream Networks	441
<i>Anna Gustafsson, Anders Wörman, Göran Lindström (Sweden)</i>	
The Foundation State Analysis and Strengthening Treatment of the Spillway in Hongmen Hydro-power Station in Jiangxi province	451
<i>WU Xin-xiang (China)</i>	
Part V: New Technical progress on high dams	
The Dam Construction in Yangtze River Three Gorges Project	463
<i>Zhang Shuguang, Yu Sanda, Geng Jun (China)</i>	
Application and Research on Magnesium Oxide (MgO) Micro-expansion Concrete	470
<i>Zhang Guoxin, Zhang Yi (China)</i>	
Effectiveness of Re-bars Around an Additional Discharge Pipe in Concrete Gravity Dam Body	483
<i>Yoshikazu YAMAGUCHI, Tomoya IWASHITA, Hiroshi KURAHASHI, Takashi SASAKI (Japan)</i>	
Planning Design Installation and Debugging of the long-distance belt conveyor in Xiangjiaba Hydropower Station	496
<i>Che Gongyi, Chen Xiang (China)</i>	
The Program and Its Latest research Advance on High Arch Dam of the Joint Fund of Yalong River Hydropower Development Nsf	506
<i>Wu Shiyong, Shen Manbin (China)</i>	
Modified Cfrd by Changing Dam Section and Filling Material in Yecheon Pumped Storage Power Plant	512
<i>Young-Ki, Lee An-Sang, Yoon Hak-Hyun, Kim (Korea)</i>	
Application of New Technology on Construction of RCC Dam for Tizidong Project	523
<i>Liu Hong (China)</i>	
Three Dimensional Coupled Nonlinear Finite Element Analysis of Shuang Jiang Kou Rockfill Dam	530
<i>DENG Gang, XU Zeping, CHEN Rui (China)</i>	

Effects of Freezing and Thawing in Embankment Dams <i>Isabel Jantzer, Sven Knutsson (Sweden)</i>	543
Development of Advanced RCD Method for Concrete Dams <i>Toshiharu FUETA (Japan)</i>	556
Seepage Monitoring in Embankment Dams Using Distributed Temperature Sensing in Optical Fibres - Experiences from Some Swedish Dams <i>Sam Johansson, PontusSjödahl, Heidi Cooney (Sweden)</i>	564
Studies of Safety Evaluation of Chencun Arch Dam Based on Whole Course Simulation <i>Zheng Cuiying, Zhang Guoxin, Ye Guiping, Cheng Lihua (China)</i>	572
New Improvement Method of Low Quality Impermeable Core material for Rock-Fill Dam <i>Akira TAKAHASHI, Shigeki URUCHIDA, Yasuo YANAKA, and Makoto NISHIGAKI (Japan)</i>	581
Dynamic Stability of Dam Slope Judged by FEM Analysis with Four Criteria <i>Tian Jingyuan (China)</i>	594
Contraction and Discharge Coefficient of Free Flow Past a Sluice Gate <i>Kim, Daegeun, Kim, Changsi (Korea)</i>	604
Research and Implementation on Aeration in Cavitation-protection for the Sidewalls of Ertan Spillway Tunnel <i>Yongxiang FENG, Chao LIU, Xiaosong ZHANG (China)</i>	612
Movements in Embankment Dams Using Distributed Strain Sensing in Optical Fibres - Experiences from Research Installations in Some Swedish Dams <i>Sam Johansson, Dan Watley, (Sweden)</i>	620
Study on the Factors Affecting the Conductivity of Embankment <i>FANG Chungang, JIA Yongmei, YAO Chenglin (China)</i>	634
New Technology and Its Effect on Work Practice <i>SENJA EDVARDSSON, ANNICA BREHMER (Sweden)</i>	642
Dam Concrete Construction and Computer Simulation Analysis for Xiluodu Hydropower Station <i>Zheng Jiexiang, He Youzhong, Chen Wantao (China)</i>	649
Statistical Characters of Sand-Layer Dynamic Triaxial Strength of Dam Foundation on Hydropower Project <i>Zhou Jiangping (China)</i>	661
Detection of Fractures in Dam Foundation By FEM <i>JIA Yongmei, FANG Chungang, YAO Chenglin (China)</i>	672
Experiences from Resistivity Monitoring in Embankment Dams	679

<i>Pontus Sjödaahl, Sam Johansson, Torleif Dahlin, (Sweden)</i>	
Strength and Durability Study for High Arch Dam Concrete Design <i>Li Jia jin (China)</i>	688
Anti-Seepage Treatment of Thick Overburden Layer Basement of High Earth-Rock Dam <i>Wu Xiaoyu (China)</i>	700
Auxiliary Tunnel Project of Jinping Hydropower Station Field Test and Application of BEAM System <i>Jiang Xuelin, Chen Yuqi (China)</i>	705
A Study on Stability Agaist Sliding of the Deeper and Shallower Layers of Dam Foundation of Xiangjiaba Hydropower Project <i>Chen Peng (China)</i>	712
The Construction of Cofferdam by Csg Method <i>PENG Yunfen, HE Yunlong, WANG Xiaofeng (China)</i>	720
Embankment Construction of Taleghan Dam in Iran <i>Ren Minghai, Wan Chunlai, Fu Wei (China)</i>	728
Study on Stability Security of Dam and Foundation of Wudu Hydro Project <i>NIE Zhiming, ZHANG Lin, CHEN Jianye, YANG Xin (China)</i>	740
Design of Flood Release Structure for Xiangjiaba Hydropower Project <i>Zhang Yongtao (China)</i>	748
Study on Slenderness Coefficient of Arch Dams <i>Xu Fuwei, Tian Bin, Chen Haiyu (China)</i>	757
Main Dam Foundation Treatment Technique Research and Control Standards of Upper Reservoir of Baoquan Pumped Storage Power Station <i>Yang Shunqun, Shao ying, Xie Zundang, Li Zhemin (China)</i>	763
Seismic Dynamic Reliability Analysis of Gravity Dam <i>Xiaochun Lu, Bin Tian, Baoxian Wang, Yipping Luo (China)</i>	770
Treatment Design for Left Bank High Slope of Xiangjiaba Hydropower Project <i>Zou Yangsheng (China)</i>	778
Experemenlation study of Optimum Vegetable Fiber Content in Impervious Layer of Asphalt concrete Facing <i>Lei Jinsheng, Weng Ligang, Peng Hui, Ji Daobin (China)</i>	786
Summarization of Second-Stage seepage prevention project of Luowan dam <i>Zou Yan-gui, Huang Tai-ren (China)</i>	792
